## IS YOUR HOSPITAL STRUGGLING TO MEET THE DSH REQUIREMENT FOR THE 340B PROGRAM?

In today’s environment, it is more important than ever to ensure your hospital qualifies for additional reimbursement and cost savings programs. A main statutory requirement of the 340B Program looks directly at a hospital’s Medicare DSH percentage. Medicare DSH represents additional reimbursement for hospitals that serve a significant amount of low-income patients. Per the regulations, the Medicaid component of this reimbursement makes it clear that all eligible days are to be included, which is crucial to consistently meet the 340B Program DSH requirement.
